THE NEW WHIRLPOOL SYSTEMS

VERY PERSUASIVE – THE WHIRLPOOL SYSTEMS FROM VILLEROY&BOCH

A WHIRLPOOL IN THE BATHROOM ...

- **Has a positive effect on health and the feeling of well-being:**
The combination of soothing massage and warm water reduces stress, relaxes tense muscles and encourages the regeneration of body and soul.
- **Improves quality of life:**
Sheer relaxation, whenever it's required.
- **Is simply more convenient:**
The private bathroom is always closer than the nearest spa.
Fill the bath and that's it!

UNIQUE ADVANTAGES OF THE VILLEROY&BOCH WHIRLPOOL SYSTEMS

- **Impressive value for money:**
All the baths are available at an attractive package price including whirlpool system. Every bath shown can be combined with every whirlpool system.
- **Up-market features:**
With optimum jet layout and integral lighting.
- **Custom-made comfort:**
All the whirlpool systems are available in two comfort versions.
- **Exclusive pools for the highest requirements:**
The CombiPool Invisible for design individualists.
The CombiPool Active for a comprehensive and intense massage effect.

THE VILLEROY&BOCH WHIRLPOOL SYSTEMS – OPTIMISED FOR YOUR SALES SUCCESS

- **Great value for money:**
Top quality features with optimised pricing.
- **Easy pricing:**
Bath including whirlpool system for an attractive package price.
- **Clear range structure:**
Two systems and one combi-system, each in two equipment variants, simplify sales talks.
- **Utmost reliability in consultations:**
Every bath shown is available with every whirlpool system.

THE SYSTEMS AT A GLANCE

Villeroy&Boch has the right system for any level of comfort.
Each of the three whirlpool systems is available with various different features.

Air jets in the base of the bath

Water jets in the sides of the bath

Air jets in the base and water jets in the sides of the bath

AIRPOOL

The air system for an invigorating massage. In the AirPool, air is injected into the bath through special jets and dispersed as fine bubbles. These air jets are located in the base and ensure a stimulating massage. The pipes to the base jets are cleaned fully automatically after use.

HYDROPOOL

The water system for targeted body massage. The water is extracted and pumped back into the bath through water jets. The HydroPool massage jet stimulates the muscles and local metabolism. The pipes to the water jets are cleaned and residual water is drained away.

COMBIPOOL

The combination of AirPool and HydroPool. The best of both worlds: Air jets in the base of the bath and water jets, depending on the model, in the back, at the sides and/or in the foot area. The jets can be adjusted and used separately, for an all-round body massage that gently eases tensions and stimulates the circulation. The CombiPool is also used for hydrotherapy.
